Above & beyond the warranty.

Most items come with a manufacturer's warranty that lasts 90 days to one year. The Home Depot Protection Plan adds coverage and benefits the warranty doesn't include—and when the manufacturer's warranty ends, we cover your item for an additional 2 or 3 years depending on plan length.

During the manufacturer's warranty, if your product has an issue that's covered by the warranty, you may be referred to the manufacturer for service. If there's an issue that's not covered by the manufacturer but is included in your The Home Depot Protection Plan, the plan will cover it.
